

BLUE FILLER

Water Soluble Screen Filler

DESCRIPTION

Blue Filler is a water soluble blockout filler. Ideal for use with all ink types except water based systems.

Applications

Blue Filler is ideal for all mesh counts from 90/cm (230/inch) upwards. It is especially recommended for spotting out pinholes on all types of stencils, and can be thinned with water to ease application in areas where small deposits are required.

READ ENTIRE TECHNICAL DATA SHEET BEFORE USING THIS PRODUCT

FEATURES & BENEFITS

- A retouching filler for use with solvent based and UV curing inks. Medium low viscosity. High contrast blue colour.
- Medium low viscosity makes it ideal for blockout and retouching. Easily applied with coating trough, card or brush.

WORKING INSTRUCTIONS

Apply the filler to the mesh and spread over the unwanted open areas with a straight edged piece of card or plastic. When used with indirect stencil systems, it is advisable to apply the filler before the backing sheet is removed, to allow rapid and accurate filling.

For more information on how to use MacDermid Autotype products, go to the How to Guide section at macdermid.com/autotype.

SHELF LIFE & STORAGE

Blue Filler should be stored between 3 to 20 °C (37 to 68 °F). Do not freeze.

Shelf life at these conditions is two years.

PACKAGING

Blue Filler is available in trade packs of 12 x 1 Litre and 2 x 5 Litre.

SAFETY & WARNING

MacDermid Autotype recommends that the company/operator read and review the Safety Data Sheets for the appropriate health and safety warnings before use.

Safety Data Sheets are available from MacDermid Autotype.

WASTE TREATMENT

Prior to using any recommendations or suggestions by MacDermid Autotype for waste treatment, the user is required to know the appropriate local/state/federal regulations for on-site or off-site treatment which may require permits. If there is any conflict regarding our recommendations, local/state/federal regulations take precedent.
